This is a request for reconsideration of the dismissal of the petition filed February 3, 2005 to revive the above-identified application under the provisions of 37 CFR 1.137(b).

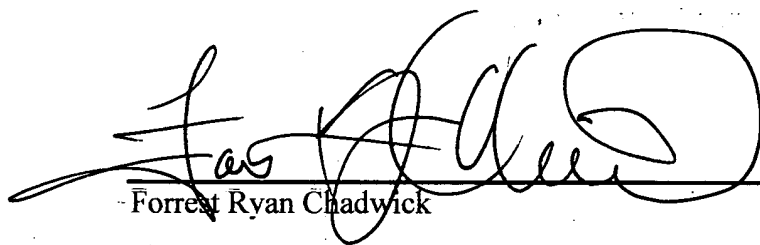

The deficiency stated in the decision letter postmarked May 26, 2005 is that the petition is signed by only one of the two joint inventors, and is therefore not properly executed.

We were under the impression that we had completed procedures to allow Forrest Chadwick to sign alone as agent as well as inventor. However we would like to correct the execution problem as instructed in conversation with Petitions Examiner Sherry D. Brinkley. Therefore we hereby ratify the petition with the signatures of both inventors which appear below and request reconsideration of the dismissal.

We also request that a copy of the original petition be sent to us by fax or mail. Fax number 310-202-6335.
